

CRAC 2016
by REACH24H Consulting Group

Chemical Regulatory Annual Conference 2016

September 20-21 | Shanghai

Organizer: REACH24H Consulting Group (a member of CTI Group)
China Petroleum and Chemical Industry Federation (CPCIF)
China Chamber of Commerce of Foodstuffs and Native Produce

Co-Organizer: Zhejiang Institute of Standardization (ZIS)
Zhejiang WTO/TBT Research & Response Center

Media Support: ChemLinked.com

“Finger on the Pulse of Regulatory Affairs”

In recent years, China has witnessed far too many accidents as a result of negligence in chemical management and environmental protection. Last year, the deadly blasts that erupted from a chemical warehouse in Tianjin killed over 100 people and turned the surroundings into wasteland. This year, the toxic soil near the Changzhou Foreign Language School is claimed to cause as many as 500 students diagnosed with different illnesses including cancer. The frequent occurrence of such accidents aroused widespread public concerns over risk of toxic exposure and resulted in stricter enforcement of chemical regulations both in China and abroad. Accordingly chemical companies doing business globally face increasingly challenging technical barriers to trade, having no better choice but to fully comply with various regulations in order to secure a competitive edge in the global market.

However, chemical regulatory requirements in major countries and regions of the world are not necessarily all the same, causing much confusion among companies seeking for market entry. As the last deadline of EU REACH registration comes close, what steps can be taken to grasp the final opportunity for REACH registration? After all the ups and downs in TSCA implementation over the past 40 years, will the reformed bill secure a better future for chemical management in the U.S.? Given all the pains left by the deadly Tianjin blasts, will China turn to a more stringent supervision over hazardous chemicals? What impacts will China's New Chemical Substance Notification Guidance exert on companies' manufacture, export and import activities? Are there any coping strategies available for compliance with K-REACH and Taiwan TCSCA?

Come to CRAC 2016 and find all the answers there. CRAC, short for Chemical Regulatory Annual Conference, is an event held by REACH24H every year since 2009. It is hailed by many as a great platform for exchange and dissemination of the most important cross boarder regulatory and practical compliance information for enterprises operating in major countries and regions across the globe. At CRAC 2016, practical issues facing industry will be discussed and presented to policymakers, NGO's and leading industrial players alike, where genuine constructive dialogues will convert into take-home information to help attendees come to terms with the most important developments in the Sino-global regulatory environment.

CRAC 2016 will focus on both the similarities and differences of chemical regulations in various countries and regions, bringing in-depth analysis of each and every topic, well positioned to bridge gaps between government officials and business experts and facilitate profound exchanges.

Conference Date

September 20-21, 2016 (Tuesday & Wednesday)

Conference Venue

Shanghai Marriott Hotel Hongqiao (5 Star)

Conference Highlights

1. EU REACH-Still the Largest Technical Trade Barrier to EU

Companies exporting low tonnage chemicals to EU have been on a honeymoon for REACH registration since its implementation. As the last deadline of May 31, 2018 comes close, the European Chemicals Agency (ECHA) has taken several steps to facilitate joint registration, calling for early preparation. With much experiences gained, ECHA is likely to step up inspection for the upcoming 2018. To help companies tide over the last deadline safe and sound, CRAC 2016 will invite ECHA officials to talk about ways for joint registration before 2018, priorities on the compliance checklist of ECHA as well as possible implications of official moves on trade to EU.

2. Hazardous Chemicals-What we've been doing shapes what we'll encounter

In recent years, deadly accidents caused by hazardous chemicals occurred here and there, driving China to improve its legislative system for safety management of hazardous chemicals. To help companies get a clear picture of hot-spot issues and latest updates in this regard, CRAC 2016 will invite officials and experts from the State Administration of Work Safety, Ministry of Environmental Protection, Shanghai Entry-Exit Inspection and Quarantine Bureau as well as National Registration Center for Chemicals to talk about the current status of hazardous chemicals management in China, latest progress in revision of the Measures for the Environmental Management Registration of Hazardous Chemicals (MEP Order22), new policies for chemical import and export supervision as well as key points for hazardous chemicals registration, classification and identification.

3. Transport of Dangerous Goods- Chinese Policies to be Interpreted and European Experiences to be Shared

Admittedly, China has formed its own legislative system for transport of dangerous goods. However, there is still much room for improvement, as is manifested in the frequent occurrence of transport accidents as well as mounting difficulties in the full implementation of various national standards. Daunting challenges still exist in terms of improving the regulatory system and emergency rescue capability. Given all this, the Ministry of Transport (MOT) of China has taken several moves to propel the safety management of dangerous goods transport. For example, the MOT issued this year newly drafted measures to specify the exemptions for transporting dangerous goods packed in small quantities, i.e. limited quantities (LQ) and excepted quantities (EQ) and authorized exemptions for road transport of carbon dioxide gas cylinders. Comparatively, the management of dangerous goods transport in EU is more systemized. There is a lot to learn from their experiences in safe storage and

transport of dangerous goods. CRAC 2016 will invite experts from UMCO to address your concerns and share their experiences, to help you make fewer detours.

4. REACH-Like—Getting to Know Regulations in China, Taiwan, Japan, South Korea and Thailand

The pacesetter EU REACH has been hailed by many as of high technical and environmental standards since its implementation. To address problems in chemical management and boost international competitiveness of the chemical industry, many countries and regions including China, Taiwan, Japan, South Korea and Thailand have been busily establishing or strengthening their own programs for the regulation of chemicals, with the issuance of or amendment to REACH-like regulations. CRAC 2016 will invite government officials and industry experts from the above mentioned countries and regions to talk about the latest regulatory developments, propose compliance strategies and share their experiences to help companies better navigate the regulatory maze there.

5. U.S. TSCA-Perspectives from its Past, Present and Prospect

TSCA, short for Toxic Substances Control Act, has been a prominent program for chemical substance management in the United States since its enactment in 1976. Almost forty years have passed since its implementation, yet little amendment has been made with the advance of the times. As problems do exist, the public calls for TSCA modernization. Despite the fact that TSCA reform has been a heatedly discussed topic, little progress has been actually made in real action. Finally in 2015, it made great strides, with the approval of the proposed legislation H.R.2576 (House) and S.697 (Senate). After years of inaction, 2016 will probably be the year US chemical regulation steps into the 21st century. CRAC 2016 will invite a senior TSCA expert to provide in-depth analysis of the background, development and future trends of TSCA.

Target Audience

- Experts from Laboratory / Scientific Research Institute
- Decision-Makers from Multi-National Enterprises
- Product Stewardship Managers
- Responsible Persons in EHS Department
- Project Managers of Chemical Enterprises
- Responsible Persons of Regulatory Affairs
- Supply Chain Managers
- Procurement Managers
- BD/Marketing Managers
- Editors from News Publication Institutes

Conference Agenda

Day 0 (Sep 19, Monday)

14:00-21:00	Registration
-------------	--------------

Day 1 (Sep 20, Tuesday)

Time	Topic	Speaker
8:45-9:00	Welcome Speech	
Session I	Overview of China, EU and US Regulations	
9:00-9:40	REACH 2018-Road to Successful Product Compliance	ECHA
9:40-10:20	Interpretation of the Revised Guidance on China New Chemical Substance Notification and Updates on Revision of the Inventory of Existing Chemical Substances in China (IECSC)	MEP-SCC
10:20-10:50	Tea Break	
10:50-11:30	Interpretation of U.S. TSCA	U.S. Expert
11:30-12:00	Panel Discussion / Q&A Session	
Lunch		
Session II	Regulatory Updates in the Asia-Pacific Region	
13:30-14:10	Up-to-date Developments of Taiwan New and Existing Chemical Substance Registration and Experience Sharing	Official from Taiwan
14:10-14:50	Compliance Strategies for Japan CSCL and Experience Sharing	Japanese Association
14:50-15:20	Tea Break	
15:20-16:00	Introduction to K-REACH and OSHA Implementation with Compliance Strategies Provided	Official from South Korea
16:00-16:40	Introduction to Thai-REACH: Guiding Principles and Current Implementation Status	Official from Thailand
16:40-17:30	Panel Discussion / Q&A Session	
18:30-21:00	Banquet	

Conference Agenda

Day 2 (Sep 21, Wednesday)

Time	Topic	Speaker
Session III	Policies for Hazardous Chemicals Management	
9:00-9:40	Key Points for Classification, Identification and Registration of China Hazardous Chemicals	NRCC
9:40-10:20	Latest Progress in Revision of the Measures for the Environmental Management Registration of Hazardous Chemicals (MEP Order 22)	MEP-SCC
10:20-10:40	Tea Break	
10:40-11:20	Interpretation of Supervision Policies for China Hazardous Chemical Import & Export	CIQ
11:20-12:00	Customs Inspection Policies for Chemical Import & Export	Official from Local Customs
12:00-12:30	Panel Discussion / Q&A Session	
Lunch		
Session IV	Storage and Transport Management of Dangerous Goods	
14:00-14:40	Transport of Dangerous Goods under New Circumstances	MOT
14:40-15:20	Current Situation of China Hazardous Chemical Management	SAWS-Shanghai Administration of Work Safety
15:20-15:50	Tea Break	
15:50-16:30	Experience Sharing: Practices of Dangerous Goods Storage in EU	UMCO
16:30-17:00	Experience Sharing: Safety Management of Chemicals by Companies	Company representative
17:00-17:30	Panel Discussion / Q&A Session	

Registration

Save USD\$150 Registration Fee before Aug 1

Register Now

650 USD/seat
(Before Aug 1)

Early Bird Price

750 USD/seat
(Before Sep 19)

Regular Price

Please fill out the form below and send it back to chemicals@reach24h.com. After receiving the registration form, the conference committee will contact you shortly.

Company (required)	
Tel	
Post address	
Title	Mr. / Ms./ Dr.
Name of attendee (required)	
Email (required)	
Passport number for Visa	
Payment	PayPal <input type="checkbox"/> Wire transfer <input type="checkbox"/>
<p>Note</p> <ul style="list-style-type: none"> · Pay in either USD or EURO but we decline by cash or check. · PayPal charge (4-5%) will be added during payment. · Bank fee shall be borne by registrants. 	
Tick to confirm registration (I agree tpo the Terms and Conditions)	Confirm <input type="checkbox"/>

Terms and Conditions

- 1) Registration deadline shall be September 10, ten days before the conference starts. For registrations after the deadline, please contact the conference committee first for confirmation and fulfill on-site payment on the conference day for conference access and materials.
- 2) Payment shall be fulfilled within 10 work days upon receipt of invoice. Considering the number of attendees is limited, once payment is received, the conference committee will issue attendee confirmation and reserve seats. If registrants do not receive a confirmation or have any questions about payment, please contact us (+86 571 8700 7555 - Ms. Sarah Ye) to ensure your booking. REACH24H Consulting group will not be liable for any non-arrival of registration information.
- 3) Substitute: in any case, a substitute of an affirmed attendee will be welcome for no extra charge if we receive your application in writing prior to September 10. The Conference Committee (chemicals@reach24h.com) will reissue the confirmation to substitute(s). REACH24H Consulting Group will not be liable of Visa application failure because substitute application occurs.
- 4) Cancellation: any attendee will be allowed to cancel reservation prior to September 1 by informing conference committee in writing. However, 50% of the invoiced registration fee will be subject to an administration charge. It is regretted that cancellation after September 1 will not be refunded.
- 5) No responsibility is assumed by REACH24H Consulting Group, the organizer, co-host, or speakers for any content or ideas presented at the event or contained in the materials.
- 6) Recording or picturing without permission of the conference committee at the event is not allowed. All intellectual TERMS AND PROPERTY RIGHTS shall be reserved by REACH24H Consulting Group. Presentation materials including vocal, video records as well as in printed book in association with CRAC 2016 shall not be used for any commercial purpose without authorization. Disclosure of materials mentioned above to any 3rd parties (except companies/organizations which attendees work for) without authorization of REACH24H Consulting Group is strictly prohibited. REACH24H Consulting Group reserves the right to trace accountability for infringement.
- 7) REACH24H Consulting Group will reserve the right to alter the program, including (but not limited to) topics, speakers, venue. Attendees are suggested taking advantage of official website for up-to-date version and CRAC event. In case of cancellation of the event by REACH24H Consulting Group, liability will be limited to the return of fees actually paid.
- 8) In case of a person/company (visitor, attendee, sponsor, exhibitor) infringing the overall interest/aim of the conference or other attendees, parties or companies involved in the conference, the conference committee shall be entitled to exclude the infringing person/ company from the conference after a warning, in writing or verbally, if there is no adequate end result. All respective costs in context of the infringement or the exclusion shall be on the infringing person/companies/organizations own responsibilities.
- 9) Expenses as travels arrangements, insurance and Visa application are on the attendee's own responsibility. The cost of accommodation is not included in the registration rate.
- 10) Applicable laws: this registration shall be governed by the laws of P. R. China.
- 11) By ticking in the box of online registration platform or registration form, the registrant agrees with the terms and conditions above.
- 12) REACH24H reserves the rights to make final interpretations of the content with respect to registration form and this terms and conditions.

Venue

[Shanghai Marriott Hotel Hongqiao \(5 Star\)](#)

Add.: 2270 Hong Qiao Road, Changning District Shanghai 200336 China

Tel.: +86 21 6010 6000

Taxi Info

- From Shanghai Hongqiao Railway Station: About 30 RMB, 8.5 km, 30 minutes.
- From Shanghai Railway Station: About 37 RMB, 13.6 km, 26 minutes.
- From Shanghai South Railway Station: About 36 RMB, 11 km, 20 minutes.
- From Shanghai Hongqiao International Airport: About 20 RMB, 4.3 km, 13 minutes.
- From Shanghai Pudong International Airport: About 189 RMB, 53.2 km, 52 minutes.

Public Transport Info

- From Shanghai Hongqiao Railway Station: Take Metro Line #10 to Longxi Road Station (Exit 3) and walk 514 meters to the Hotel. The whole journey will take about 19 minutes.
- From Shanghai Railway Station: Take Metro Line either #4 or #3 to Hongqiao Road Station or Line #1 to South Shaanxi Road Station and transfer to Line #10, get off at Longxi Road Station (Exit 3) and walk 514 meters to the Hotel. The whole journey will take about 45 minutes.
- From Shanghai South Railway Station: Walk 211 meters to South Railway Station (MTR), take Metro Line #3 to Hongqiao Road Station and transfer to Line #10, get off at Longxi Road Station (Exit 3) and walk 514 meters to the Hotel. The whole journey will take about 38 minutes.
- From Shanghai Hongqiao International Airport: Take Metro Line #10 to Longxi Road Station (Exit 3) and walk 514 meters to the Hotel. The whole journey will take about 17 minutes.
- From Shanghai Pudong International Airport: Take Metro Line #2 to East Nanjing Road and transfer to Line #10, get off at Longxi Road Station (Exit 3) and walk 514 meters to the Hotel. The whole journey will take about 1 hour and 38 minutes.

Note: This is for reference only, please consider the actual traffic conditions.

Hotels

1 Shanghai Marriott Hotel Hongqiao

Special Offer: Conference venue with reduced rate of 900 RMB/night (with one buffet breakfast and internet) or 1000 RMB/night (with two breakfasts and internet) can be booked through the CRAC conference committee. Please make reservations by completing the [Shanghai Marriott Hotel Hongqiao Reservation Form](#) and returning it by fax or email to Hotel Reservation Department before Sep. 5, 2016. Thereafter, reservations at the special event rate can only be confirmed subject to availability.

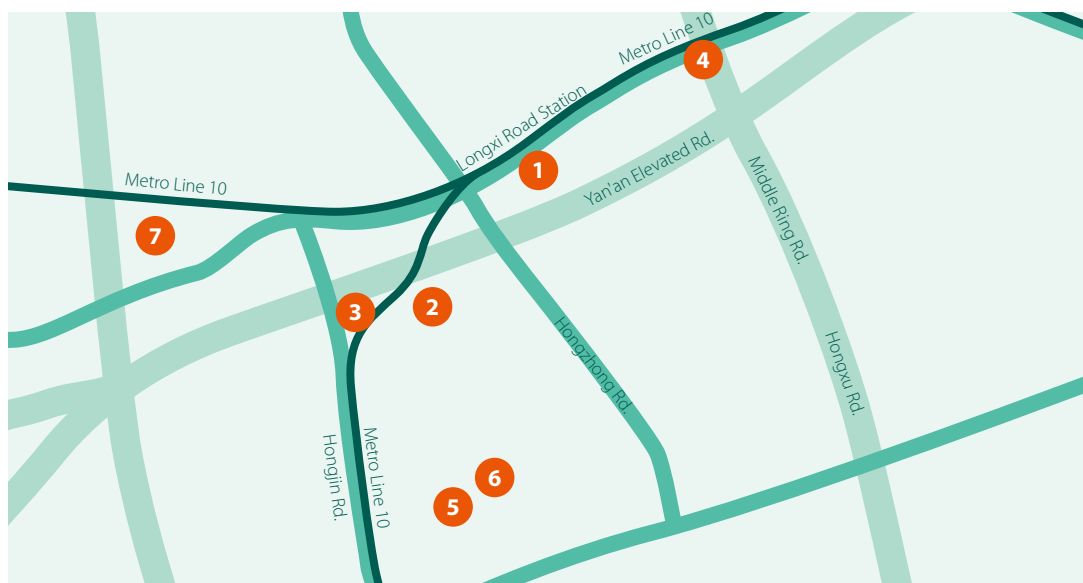

Contact Info of Hotel Reservation Department:

Organizer

REACH24H Consulting Group

Since its foundation, REACH24H Consulting Group has maintained constant growth in its business operations, becoming a leading service provider of professional regulatory consultancy and cost-effective solutions for chemical regulatory compliance. Headquartered in Hangzhou, China, REACH24H also has two wholly-owned subsidiaries in Dublin, Ireland and Washington, DC, USA offering timely, reliable, and comprehensive compliance solutions for companies. It is the sole strategic partner with PetroChina, a one of the Fortune Global 500, in compliance of EU REACH and has close working relationships with numerous associations including China Rubber Industry Association and China Chamber of Commerce of Foodstuffs and Native Produce the European Chemical Industry Council (CEFIC), American Chemistry Council (ACC), Singapore Chemical Industry Council (SCIC), Chemical Industries Council of Malaysia (CICM), Irish Exporters Association (IEA), and Royal Thai Embassy, etc. www.reach24h.com

China Petroleum and Chemical Industry Federation

China Petroleum and Chemical Industry Federation (CPCIF) was established on April 28, 2001. It is a non-government, not-for-profit organization consisting of companies, institutes, sectional associations and local associations in the petroleum and chemical industry on the voluntary basis. Currently it has over 300 direct members including 44 sectional associations and over 20 regional associations, most large-scale enterprises, research institutions and universities, which covers 70% operation of China's petroleum and chemical industry and represents all fields of this industry. CPCIF also maintains close working relations with relevant regional authorities in China. <http://www.cpcia.org.cn/>

China Chamber of Commerce of Foodstuffs and Native Produce

China Chamber of Commerce of Foodstuffs and Native Produce (CFNA) was established in September 1988. The membership of CFNA has exceeded 6900 companies, among which 48 are members of the executive standing committee and 149 are members of the executive committee. Its membership, covering all parts of China, is composed of the largest and most representative companies and a large number of small and medium sized enterprises. The chamber of commerce has set up 47 chambers of commodities, all of which have a nation-wide membership. The members are composed of companies targeting domestic and international markets. They can also be categorized as growing, farming and processing enterprises, science institutes, and agricultural associations at local levels. In terms of ownership, CFNA's membership includes state owned, foreign invested and private companies, as well as some international members. The members of CFNA represent the status and power of China's agricultural, forestry, food and farm industry as a whole. <http://www.cccfna.org.cn/>

Zhejiang Institute of Standardization (ZIS) Zhejiang WTO/TBT Research & Response Center

Zhejiang Institute of Standardization (ZIS) formerly known as Zhejiang Province Quality and Technical Supervision Information Institute is created under the Zhejiang Bureau of Quality and Technical Supervision. ZIS specializes in standardization research and related information and technical service, including release of Chinese technical documents and translation of oversea technical barriers to trade (TBT) regulations and rules, review of provincial technical standards in Zhejiang China and carrying out related research projects, notification and alert studies. More information please check www.zjancc.com.

CRAC 2016 Sponsor Opportunities

As significant cooperative partners of the 8th Chemical Regulatory Annual Conference (CRAC 2016), REACH24H Consulting Group together with ChemLinked is committed to providing the best support to promote your publicity. With over 200 chemical professionals from over 150 companies, the CRAC 2016 offers branding, networking and three levels of sponsorship opportunities for promoting your company. All sponsors will be recognized in printed conference materials and electronic media both in Chinese and English.

CRAC 2015 Exhibition Stand

VIP Sponsor: Only One Spot Available

Sponsor Fee =\$9000

- **3 Complimentary Registrations (\$750*3=\$2,250)**

- **Speaking Session on Day 2 of CRAC 2016 (15-20 min)**

You can present one topic during the afternoon session on 21 Sep. 2016.

- **LED Screen with commercial materials or video offering**

1) 26 m² LED Screen will display your commercial materials or videos before the conference, and before tea break;
2) Video shall be less than 5 mins; slideshow shall be less than 20 pages; the total amount of time of the video to be played is 40-60 min.

- **Branding at the event: Exhibition stand + Roll-up Banners + 2.5*2.5m Display Area + Ads boards at conference room**

1) 3m * 2m advertisement boards will be displayed during the conference;
2) Exhibition stand with chairs will be prepared upon your needs;

- **Imaging and Promoting**

1) An A4 landscape page ads will be printed in conference materials for all attendees;
2) Sponsor name and logo inclusion in the CRAC 2016 Brochure for all potential attendees.
3) Sponsor name and logo printed on all attendee name badges;
4) Sponsor name and logo inclusion in the signage and large-scale signing board;

- **Marketing and Hyperlink on CRAC 2016 Official Website and Email Campaign**

- **Company Brochure/Sell Sheet Placed in Serving Area**

- **Media Support from ChemLinked.com**

As the leading information platform in the realm of chemical, food, cosmetics and agrochem regulatory intelligence, ChemLinked can help you gain unparalleled popularity among regulatory professionals.

Post 312*180 px sponsor ads on the Homepage of ChemLinked, and will promote for 2 weeks after the conference.

ChemLinked will arrange an interview, and will publish it on its website and then send it to all the ChemLinked members. More details can be agreed between the sponsor and ChemLinked.

Gold Sponsor: Only One Spot Available

Sponsor Fee = \$5,500

- **2 Complimentary Registrations (\$750*2=\$1,500)**

- **Guest Speech at the banquet of 20 Sep. 2016**

You can give a guest speech at the banquet, simultaneous interpretation will be provided.

- **LED Screen with commercial materials or video offering**

1) 26 m² LED Screen will display your commercial materials or videos before the conference, and before tea break;
2) Video shall be less than 2 mins; slideshow shall be less than 10 pages; the total amount of time of the video to be played is 20-30 min.

- **Branding at the event: Exhibition stand + Roll-up Banners**

Exhibition stand with chairs will be prepared upon your needs.

- **Imaging and Promoting**

1) A half A4 landscape page ads will be printed in conference materials for all attendees;
2) Sponsor name and logo inclusion in the CRAC 2016 Brochure for all potential attendees.
3) Sponsor name and logo printed on all attendee name badges;
4) Sponsor name and logo inclusion in the signage and large-scale signing board;

- **Marketing and Hyperlink on CRAC 2016 Official Website and Email Campaign**

- **Company Brochure/Sell Sheet Placed in Serving Area**

- **Media Support from ChemLinked.com**

As the leading information platform in the realm of chemical, food, cosmetics and agrochem regulatory intelligence, ChemLinked can help you gain unparalleled popularity among regulatory professionals. Post sponsor ads on the [EVENT page](#) of ChemLinked, and will promote for 2 weeks.

Corporate Sponsor: 3 Spots Available

Sponsor Fee = \$2,000

- **1 Complimentary Registration (\$750)**

- **Branding at the event: Roll-up Banners**

- **Imaging and Promoting**

- 1) 1/4 A4 landscape page ads will be printed in conference materials for all attendees;
- 2) Sponsor name and logo inclusion in the CRAC 2016 Brochure for all potential attendees.
- 3) Sponsor name and logo printed on all attendee name badges;
- 4) Sponsor name and logo inclusion in the signage and large-scale signing board;

- **Marketing and Hyperlink on CRAC 2016 Official Website and Email Campaign**

- **Company Brochure/Sell Sheet Placed in Serving Area**
